VOLUME 6, NO. 83.

BRAINERD, MINN., MONDAY, SEPTEMBER 10, 1906.

PRICE TWO CENTS

BUCKMAN AND LABOR

Jnequivocal Declarations Of Sixth District Congressman On Questions Vital To Wage Earners.

The opposition to Congressman C. B. Buckman, has made a play of empty phrases for the labor vote. Without offering a single remedy for the recognized evils the laboring men contend with, without making a single pledge to Labor. How different is the attitude of Congressman Buckman, who is emphatically endorsed by the Knights of Labor as a friend of Labor in Congress as he has been a friend of the laboring men of Minnesota.

Early in the spring Samuel Gompers, President of the American Federation of Labor, addressed a letter to all Senators and Congressmen asking their views on the several subjects included in the much discussed Bill of Grievances submitted by the Federation to the President, Vice President and Speaker.

A portion of Mr. Buckman's reply, written in April, 1906, while Congress was in session and some of the very matters touched on under consideration, was by direction of Mr. Gompers, reproduced in the current number of the Federationist, the official organ of the American Federation of Labor, that laboring men throughout the country and the Sixth District of Minnesota may know exactly where Congressman Buckman stands on the Labor question.

The following excerpts are taken from the Federationist, quoting Mr. Buckman's letter:

"I favor an unqualified enforcement of the eight-hour law on Government work (saving, of course, forced work of divers, etc., such as may be necessary to save property in emergencies.)

"I have always favored strict regulation of immigration and a more rigid restriction of undesirable immigration. While I believe America should offer a haven for the worthy and industrious of Europe, I do not believe it is consonant with our national welfare or duty to afford any asylum for the vicious and indignant.

"The Chinese exclusion act is in my judgment, right and I do not believe it should be tampered with or evaded.

"Any system of law involving compulsory service, either civil or military, for free men will never have my support, and as to the evils of the towing system I am agreed with you perfectly, and while I am not familiar with the seacoast methods, I have given the towing system on our great lakes a good deal of attention and have been lead to believe that the organization of the seamen has in a large degree cured the old evils. I should be very glad to support such legislation as you suggest.

"I heartily disapprove of any governmental function being employed to coerce peaceful men, and in this connection, I want to say I have no sympathy with the modern construction and maladministration of the fellow servant laws, by which corporations have been enabled to saddle responsibility for their own illegal acts upon their employees. No more do I believe it is the function of the government to deny any wage earner the right to ask for a betterment of his condition."

There is no law book quibbling in those statements. No room for doubt. Congressman Buckman believes it is his duty to guard the interests of the working man as carefully as those of any other class of men. He was an employer of labor for thirty years. His best friends are the men who have worked for and with him. They know him and they trust him. On the Labor Question Congressman Buckman is right, as his record shows him to be right on every great question considered by Congress during his incumbency.

DISAPPOINTED OVER DEFEAT.

But Gallant Harvard Oarsmen Are Offering No Excuses.

London, Sept. 10.—While naturally keenly disappointed at their failure to defeat the Cambridge crew, the Harvard oarsmen are offering no excuses. During the five weeks spent on the Thames they exerted every effort to reach that form which they hoped would enable them to win, and entered their boat in perfect condition, but, as was proved, this was not sufficient to overthrow England's crack university crew, which Captain Filley and his men candidly admit was too strong for them.

The Americans rowed their best from start to finish and took advantage of every lesson they had learned since reaching England and did not lose hope until Cambridge crossed the line. Their only wish now is to have an opportunity of meeting the wearers of the light blue in American waters.

The Harvard men, having completed the serious work of their visit, are devoting their last week in England to pleasure.

ELECTRIC CAR HITS A PHAETON.

Three Persons in the Latter Vehicle Badly Injured.

Baltimore, Sept. 10.—While running at a high rate of speed at Shell Road crossing Sunday night, an electric car on the Sparrows Point line of the United Railways struck a phaeton in which were a party of eleven persons returning from an outing. All of the occupants of the phaeton were thrown into a galley. The driver, John P. Michel, colored, received probably fatal injuries, and two members of the outing party were seriously injured.

AGAINST STANDARD OIL.

Presumed That Proceedings Will Be Instituted at St. Paul.

London, Sept. 10.—While naturally disappointed at their failure to defeat the Cambridge crew, the Harvard oarsmen are offering no excuses. Planing Mills Burned.

Sumter, S. C., Sept. 10.—Fire Sunday destroyed the planing mills of the Sumter Lumber company. Loss, \$100,000.

TROOPS ATTACK JEWS

MASSACRE OF POLICE AND SOLDIERS AT SIEDLCE IS FOLLOWED BY SLAUGHTER.

HUNDREDS ARE SHOT DOWN

CIVILIANS, CHRISTIANS AND JEWS ARE ALL MURDERED WITHOUT DISCRIMINATION.

Siedlce, Russian Poland, Sept. 10.—A massacre of police and soldiers began at 8 o'clock Saturday night. Immediately afterward the troops attacked the Jews.

All Sunday the soldiers attacked civilians, Christians, or Jews, robbing and murdering them without discrimination. Hundreds of persons were killed or wounded. Three streets were devastated.

It is reported that drunken reservists started the massacre.

Troops have surrounded the city and refuse access to it.

STARTED BY TERRORISTS.

Killing of Two Soldiers Precipitated Massacre.

Warsaw, Sept. 10.—Terrorists Saturday evening shot and killed two soldiers guarding a government alcohol store at Siedlce. A detachment of infantry rushed up and fired a volley into the crowd, killing two persons and wounding two.

Sunday morning the terrorists retaliated by beginning a massacre of policemen and soldiers patrolling the streets and at noon the infuriated troops attacked the Jewish quarters of Siedlce, destroying the houses and shops.

It is reported that over 100 persons were killed or wounded and that the town is in flames.

A regiment of infantry has been sent from Deblia to Siedlce to restore order.

The Jews here are panic-stricken. Alarming reports are being circulated in the city.

BRITISH OFFICIAL WOUNDED.

Vice Consul at Baku Is Shot Six Times.

Baku, Sept. 10.—Leslie Urquhart, the British vice consul here, who was decorated by King Edward for heroism in rescuing English isolated at Balakna from Tartar insurgents during the massacres of 1905, and who is one of the most prominent men in the oil region, was the victim of a serious attack Saturday night in the center of the city and miraculously escaped death. Though he was fired at eight times at short range, his only injuries were six slight flesh wounds. The motive for the crime has not been established, but it is believed to be a revolutionary act patterned after the attack on Germans at Warsaw preceding the attempt on the life of Governor General Skallion. Mr. Urquhart's assailants escaped.

GATHERING GREAT FORCE.

Insurrectionary Movement in Transcaucasia Becomes Alarming.

Odessa, Sept. 10.—A dispatch received from Tiflis says that the insurrectionary movement in transcaucasia is suddenly gathering great force.

The military and civil authorities are at loggerheads, Georgia, Imritia and Mingrelia are absolutely terrorized, being dominated by revolutionists and brigands, and the viceroy has asked to be replaced.

Girl Will Be Hanged.

St. Petersburg, Sept. 10.—The sentence of death imposed upon Zenaide Konopliankova, the girl who was assassinated General Min at Peterhof, who was condemned on Saturday by court-martial to be hanged, will be carried out Monday night.

Fire Consumes Launches.

Detroit, Sept. 10.—Fire, starting by the ignition of gasoline in a launch at the foot of Albert Stegmeyer's dock on Jefferson avenue, swept up the dock, consuming twenty-five launches, and then leaped across the dock and reduced to ruins the \$20,000 roller toboggan of the Detroit Amusement company. The Gem theater also was destroyed. The total loss is \$60,000.

Sisters Burned to Death.

Scranton, Pa., Sept. 10.—In a fire near the Continental breaker Nettie and Emily Smith were burned to death and their father, Fred Smith, is in a serious condition. The girls were playing in a shanty and in some manner their clothing caught fire. The father was burned in attempting to save them.

PRIEST SHOOTS PARISHIONER.

Factional Quarrel Results in Bloodshed at Glassport, Pa.

Pittsburg, Sept. 10.—Rev. Father A. Garstka, rector of the Polish Catholic church of Glassport, is under arrest for the shooting of Joe Klayenski, one of his parishioners, who is in the hospital with a serious wound in the abdomen. The shooting was the culmination of a factional quarrel in the congregation of several months' standing. The priest refused to give up certain books containing church records and the malcontents appointed a committee of six to secure them. When the committee called on Father Garstka he persisted in his refusal to deliver the books and the committee tried to obtain them by force. In the scuffle that followed the priest managed to secure his revolver and began firing. The wounding of Klayenski ended the battle and the committee retired with their injured member. Father Garstka then gave himself up to the officers.

POLITICIAN FATALLY STABBED.

Legislator Wounded While Celebrating His Renomination.

Pittsburg, Sept. 10.—Lawrence D. Cook, member of the Pennsylvania legislature, who was renominated Saturday, was Sunday perhaps fatally stabbed by Andrew MacMillan, a justice of the peace and one of the wealthy residents of Carnegie. Cook, who became famous during the last legislature for being the author of the Greater Pittsburg bill, is alleged to have been celebrating his renomination. He met a woman, said to be Mrs. MacMillan, and the two went to a house. While there MacMillan rushed in and struggled with Cook. During the fight Cook was stabbed a number of times and is now in a critical condition. MacMillan was arrested.

SUSPICIOUS OF NOTE

RECEIVER EARLE NOT CERTAIN ABOUT ONE OF PRESIDENT HIPPLE'S ASSETS.

Philadelphia, Sept. 10.—A note which is regarded with suspicion by District Attorney Bell and Receiver Earle has been found among the papers of the wrecked Real Estate Trust company. It is for \$77,000 and bears the signature of Joseph A. Baker, who has been dead three years. The loan is secured by \$120,000 in first preferred 6 percent bonds of the Champion Iron and Separator company, one of Segal's many enterprises.

The district attorney's investigation of the note up to the present time has resulted in nothing tangible. Members of Baker's family professed entire ignorance regarding it, saying they were unaware that he had ever given President Hippel his note for any amount. In fact they did not believe Baker was acquainted with Hippel. Mr. Bell and Receiver Earle express the fear that this note may be another evidence of Hippel's wildcat financing.

FILIPINO REPUBLIC.

Gomez Says England, France and Germany Would Recognize One.

Manila, Sept. 10.—Dominar Gomez, at a political rally, declared that England, France and Germany would recognize a Filipino republic. Gomez made the above declaration in response to a request for an accounting of money collected.

He further said that the money had been used in sending cablegrams to Europe to create a sentiment in favor of a Philippine republic and that favorable replies had been received.

EVEN the opposition does not claim that Congressman Buckman has not made a good official, is not a good hustler, does not get things for his district, nor that he does not deserve a renomination—the other fellow simply wants his job, that's all.

CHARLIE TOWNE has withdrawn from the congressional race in New York owing to the fact that he desires to settle down and make some money for his family in his chosen profession of the law, as he puts it. Charley has undoubtedly had a vision in which democratic success does not look very bright.

THERE IS something of a fight on in Minneapolis over the selection of a republican candidate for congress and the Journal is somewhat busy with its own troubles. It actually now believes the nomination of a congressman from the Sixth district should be made without outside interference. The Journal thinks the choice of a congressman is not one to be made lightly or upon grounds of personal preference or good fellowship, but upon considerations of fitness, capacity, character and industry. The people of the Sixth district want just such a man to represent them and they have a candidate in the field who has been tried and found to be the man who does things. They are not ready to change to a man who is untried and whom they know nothing about.

C. B. Buckman has worked untiringly in the interest of the district during the two terms he has represented us in congress and he has accomplished more for the district than any man who ever represented it. The people of Brainerd know this to be true for as an evidence we have an appropriation for public building site which is about to be selected, and it is the first public improvement that anyone has ever secured for the city. It isn't good policy to discharge a man who is doing good work for you for one who promises to do good work.

The people of Brainerd should give their united support to Mr. Buckman for what he has done for them and he did it at a time when many other man would have hesitated between giving a city something whose voters had not been overly friendly in the past or in giving it to a city the people of which had shown an appreciation of his worth.

Brainerd owes it to the present congressman to give him a handsome endorsement at the primary election and we believe she will do it.

Cured Hay Fever and Summer Cold

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success. H. P. Dunn & Co."

PROTECTION FOR POLICY HOLDERS

MON. ALBERT L. COLE URGES MEASURES TO MAKE INSURANCE POLICIES ABSOLUTELY SAFE.

Hon. Albert L. Cole devoted a considerable portion of a recent speech to the consideration of the problem of how best to protect the interest of policy holders. He said:

"Until a couple of years ago most people believed that a life insurance policy was a good form of investment. There was also general national pride in the size and strength of our great American life insurance companies. The recent disclosures as to the scandalous business methods of some of the Eastern life insurance companies have changed all this. Many policy holders have allowed their policies to lapse, comparatively little new business has been written, and the big companies have become a subject of criticism, gibes and sarcasm instead of praise and pride.

"It would be a serious misfortune for the country if this were carried too far. A life insurance policy in a properly managed company is, for most families, a valuable species of saving. If the attack upon life insurance companies generally becomes so fierce that the people acquire a permanent distrust of all life insurance and cease to insure their lives, one of the most valuable instrumentalities for thrift will have been eliminated from our national life. If this attack is carried so far as to effect the solvency of the companies, the resulting calamity will be appalling.

"It is the part of wise statesmanship to so handle the present situation:

- (1.) That the solvency of the existing institutions should not be impaired.
- (2.) That the companies which have not been guilty of abuses should not be made to suffer along with those of a different character.
- (3.) That the popularity of life insurance as a family protection may be preserved, and
- (4.) That it may be made safe so that those who invest their money in it may not be deceived or disappointed.

"I do not think that these objects are to be accomplished by a change of management of the companies alone. I am afraid that even if the policy holders participate in the selection of trustees, as they have not heretofore done, the trustees of their selection, however fair their repute, will find it difficult and perhaps impracticable to give that intimate supervisory attention to the several companies' affairs which, in the long run, is essential if evils are not to creep in. To secure permanent results, we shall have to have continued regulation and supervision by the state. We think we have discovered some of the sources of the evil. Extravagant salaries, reckless expenditures, and the use of trust funds for speculative purposes and private gain, have been encouraged in the opinion of experts by the accumulation of great surpluses, needlessly exacted, from policy holders. Legislation requiring at least the apportionment among policy holders of their excess payments at frequent intervals will check some of the troubles. But after awhile they will return again in some other shape unless constant vigilance is employed. The state owes it to its people, to itself, to insure the financial institutions within its borders. The average citizen has not the time nor the facilities for personal investigations. The state must assume the task. Its methods of investigation should be so complete that its license issued to an insurance company or a bank, should be equivalent to a guarantee that it is entitled to public confidence. An insurance company dishonestly or incompetently managed, or a bank becomes insolvent is a public disaster of wide reaching consequence, and should be made an impossibility. This can be accomplished in one way, and in one way only, and that is by a system of the highest publicity. The insurance departments of the several states should devise and enforce the use of such forms of reports that the condition of the several companies as to assets, liabilities and expenses, should be clearly disclosed, and should operate one with the other so that the cost of investigations from time to time may be minimized. The revelations of the recent investigation committee would have come years ago had such a plan been heretofore adopted.

But the vastness of the work for the insurance department of any one state has prevented its being done in the absence of co-operation, and the reports furnished have served to conceal rather than show the truth. In other words, I think publicity is the great safeguard."

Stewartville Times, Aug. 25: Do not forget that by voting for Mr. Cole for governor, and voting for the Republican ticket this fall, you are voting for railroad fare in Minnesota of 2 cents per mile. Such a thing will come in time; but you may be dead and gone before that time arrives. You can hasten it very much by voting for Mr. Cole.

ANNOUNCEMENT!

The N. Y. goods are coming as fast as wheels will bring them!

Here's the First Arrival

DO YOU want to see the most sensational—the greatest money saving sale that was ever launched in any town or city in the history of store keeping? Then take a stroll down Front Street tonight and look in the west window of the Cale Dept. Store and you will gaze with wonder on the great Bargains in Towels the one thing most needed in this hot weather.

This is the story: An Eastern manufacturer had towels and needed money. We had the money and wanted the towels. He offered us 100 dozen at a price—We bought them and bring them to our customers for 9c a towel. He had another 100 dozen lot—the price—well we bought them and now put them on sale for you at 13c a towel.

Come and look at the size—at the patterns and examine the quality.

You can have all you want of them next Thursday and Friday, Sept. 13 and 14 at 9c and 13c a towel—but none before this date.

L. J. CALE'S Dept. Store.

P. S.—This is the first sale of a series of weekly sales which we will hold from now on.

WHITE BROS.

BOYS' there is little use in our wasting Printers Ink. For it is a fact known by all Sportsmen, that ours is by far the largest stock of GUNS AND AMMUNITION North of the Cities, and our ammunition is no experiment, our prices are right and the Old Man is always on deck to rent or sell a Gun.

616 Laurel Street.

A SPECIAL BOOK SALE

For a short time only. To close out what Books we have on hand. We are making a price of 75c on regular copyright \$1.50 books. We have a nice assortment so come early and get the best as they will go fast at that price.

Also a nice line of Bound Books at prices from 16c and up.

BRAINERD MALE CHORUS

be Organized Thursday Evening,
September 13, at Baker's Hall—
Good Membership Expected

The Brainerd male chorus will have first regular meeting on Thursday evening, Sept. 13, at Baker's hall when organization of the singing society will be effected. It is already assured a membership of 25 young men, many whom have had valuable experience church solo and quartette singing. A large male chorus singing English one of the things that has been lacking in the musical life of our city, and organization will endeavor to supply this deficiency. Every session can make a most interesting one. The music for a chorus ranges from the simplest popular quartette to the difficult oratorio. Chorus singing benefits the vocalist just as much as orchestral playing does a solo violinist. No limit placed on the size of the membership—the larger the chorus, the greater the volume of tone at its command. The grand male chorus at the St. Paul singing festival embraced 2,000 voices and most wonderful effects were gained with the simplest songs.

The following are taking an active interest in the chorus: Hugo A. Kaatz, V. J. F. Miller, Floyd Brown, John Bye, John Towers, J. A. Hoffbauer and others. A cordial invitation is extended to all singers to be present on the night of organization.

WORST FORM OF TORMENT.

Indigestion Makes Life Miserable

How To Cure It.

There is no need of telling a person with stomach trouble that indigestion makes life miserable. The burning and gnawing feeling in the stomach, the sick and nervous headaches, the sleeplessness, general debility, aching back, specks before the eyes, and the nervousness, irritability and despondency that come from indigestion, make life a torment.

Happily a physician's prescription for stomach troubles called Mi-o-na stomach tablets, is now for sale by H. P. Dunn & Co., who recommend it as an absolute and complete cure for indigestion and all stomach ills. Mi-o-na is not a temporary relief or a mere digestive.

Take one of the little tablets before meals for a few days and the digestive organs will be so toned and strengthened that you will be able to eat anything intended for food without fear of indigestion and distress.

Mi-o-na is so universally successful in curing all forms of stomach weaknesses that H. P. Dunn & Co. give a signed guarantee with each box, that your money will be refunded unless the remedy gives you satisfaction. This certainly shows their strong faith in the medicine. Many of their customers have used it with the greatest success and praise it highly as the only cure they have ever found for stomach troubles.

AMUSEMENTS

Parsifal

A theatrical announcement that demands more than ordinary attention is that of Wagner's magnificent spectacle of "Parsifal." This justly celebrated play has attained a degree of unquestioned success that has seldom, if ever, been the fortune of any other production. This success has not been accomplished by any unusual or extraordinary methods, such as occasionally brings some stage celebrity or production into temporary prominence. Its success and enthusiastic reception by the better class of theatre goers everywhere it has been presented, has been achieved by the drama's intrinsic merit and inherent beauty. This fact, combined with the masterly manner in which it has been staged regarding scenery, costuming and cast, has been the cause of its splendid success. Nothing that would be in any manner add to its value has been left undone by its management. A clever, specially selected cast of principals and an equally clever corps of auxiliaries, are used in the production, which will be seen at the opera house here in the near future.

Dora Thorne.

The manner in which Messrs. Rowland & Clifford have mounted and produced "Dora Thorne" calls for only the keenest admiration. The trace of the hand of a genuine artist is seen back of "Dora Thorne." Its distance, its splendid perspective, its rare colors, the careful working of the details of its various pictures give at first hand an artistic atmosphere to its production, which before has often been attempted but rarely accomplished. The position of the players, the way in which Miss Maud Brandon plays Dora Thorne works into the pictures with unusual fidelity of artistic standard. This beautiful and superior production of Bertha M. Clay's famous novel dramatized will appear at the opera house here on Wednesday, Sept. 12th. Seats on sale at Dunn's drug store tomorrow morning at ten o'clock. Prices 75c, 50c and 25c.

The Great McEwen.

When the late Hermann, the Great, died, there was for a year or so, several magicians who claimed his title, "The Greatest of the World's Magicians." Where one man might possess his skill in palming, another his genius in small tricks, someone else his ability in planning and executing his marvelous illusions and yet another his magnetic stage presence and delightful small talk, yet there never was a man who combined these faculties until recent years when the Great McEwen, by years of study, experiment and practice, has won for himself the undisputed title of "Hermann, The Great's Successor."

He will shortly play an engagement here, presenting an equipment representing an investment of \$15,000 using all special scenery and introducing several well known vaudeville acts. Some experiments in hypnotism and mind reading will be given at each performance during the engagement.

An Insidious Danger

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes.

Blackduck Party on Their Way Home
From a Long Tour of Eastern
States in Automobile

A party consisting of Mr. and Mrs. F. Freeman, of Blackduck, and W. C. Freeman, father of F. Freeman, arrived in the city yesterday in a large Columbia touring car. They have been making a long trip through the eastern states, having covered over 11,000 miles this season. Their machine is one of the most complete that has ever been seen in Brainerd. It has oil, acetylene and electric lights, the latter being a powerful search light that can be turned in every direction. They loaded the machine on a freight car here for shipment to Blackduck.

How To Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. ARE YOU WRETCHED IN BAD WEATHER?

Keeping the Kidneys Well Has Kept Many Brainerd People Well

Many Brainerd people find that bad weather brings on a dull pain in the back, or rheumatic aching, neuralgia, nervousness, irritability and weakness. If, when you get wet or take cold, it "settles on the kidneys," and there is a shivery, chilly sensation in the back, it shows kidney weakness, which is often the beginning of disease. Doan's Kidney Pills should be used persistently until the chilly feeling is gone, and the flow of urine is natural. Doan's Kidney Pills have saved Brainerd people much suffering.

Mrs. J. A. Johnson, living at 611 10th St. S., Brainerd, Minn., says: "My husband's work brings a constant severe strain on the muscles of the back and it recently caused an attack of kidney trouble that became worse whenever he took cold. He suffered from backache and was so lame and sore that it was hard to straighten up or even to move about. There was also an irregular action of the kidneys. Seeing Doan's Kidney Pills advertised he got a box at H. P. Dunn & Co.'s drug store, and the treatment proved most beneficial, corrected the kidney trouble and removed the pain and lameness. I also used Doan's Kidney Pills myself, with the gratifying results. They certainly act quickly and surely."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

BASEBALL WITH CARDS

Kansas City Firemen Play New Game While Waiting For Alarms.

Baseball played with cards. This is the new game that Kansas City firemen are using to pass the time at headquarters while waiting for something to do, says the Kansas City Star.

A traveling salesman from St. Louis introduced the game a few days ago, and for the time being dominos, crokinole and tiddie-de-winks have been neglected. Four people can play the game. Singles, two baggers, home runs and errors can be made just as in the national game of baseball. A two hour contest the other afternoon resulted in a score of 3 to 2. But the games do not always run so nearly even. A game a few days ago resulted in a score of 15 to 0.

"It all depends on the pitcher and catcher and how the man who is playing the cards keeps his head," one of the players said.

BRAINERD PEOPLE THERE

E. J. Landon Writes from Prince Albert Canada, as to the Country and Conditions.

E. J. Landon, formerly of Brainerd, but later residing in Mississippi, has just gone to Prince Albert, Canada, to accept a position with the Prince Albert Lumber Co., under Al Mattes and THE DISPATCH is given the privilege of publishing a part of a private letter to his wife in this city. He says under date of August 29:

"It is very cold here, and lots of mud. It has been raining for three or four days. It is not raining this morning.

"Board and room are \$4 per week. Flour is \$2 per cwt. Some things are higher, some are not, but living don't seem to be bad. The company is building some 4-room houses that they are just plastering and will rent for \$8 per month. They are all promised but one and Mattes said he was holding that for me. They are rather small and I don't like them, but we could live in one for this winter.

"Muzzy is here, Levi King, Andy Miller, Christ Hall, Jim Gody, Mr. Stickney, Frank White and others that I knew in Brainerd.

"This town is on the very edge of civilization—when you cross the river you are in the wilderness. The land has not been surveyed yet and therefore is not open to settlement, but they expect it will be soon.

"This town is scattering and lots are high and they have taken some of them off the market altogether and won't sell them at any price. About \$200 is the cheapest you can get a lot."

CHICAGO MAN A SUICIDE.

Clarence K. Wooster Cuts His Throat While Insane.

Chicago, Sept. 10.—Clarence K. Wooster, vice president of the People's Gas Light and Coke company, and prominent in club and social circles, committed suicide Sunday at his home, 3500 Ellis avenue, by cutting his throat with a razor. Mr. Wooster is supposed to have been insane when he killed himself. About three weeks ago he suffered from heat prostration and for the past few days had been under special care of physicians. Sunday he entered the bathroom and a moment later his valet, who had been instructed to keep watch over him, heard him fall. When the valet opened the bathroom door he found Mr. Wooster lying on the floor with the blood streaming from a deep gash in the throat and the razor which Mr. Wooster had used lying at his side. Mr. Wooster died before a physician could be summoned. He was forty-eight years old and unmarried.
